

SYSTEM SG

ADHESIVE SYSTEM

1 Gallon

This system can attach to the existing 1 gallon adhesive container or the container can be supplied. The container should be elevated slightly above the work surface.

5 Gallon

This system will attach directly to the existing 5 gallon adhesive container. The container should be elevated for increased flow. It can also be outfitted for "bag-in-a-box" container. An optional multiple gun outlet is available.

Tote

This system will attach directly to the tote outlet valve. The tote should be positioned 5'-8' above the work surface. Optional multiple gun outlet is available.

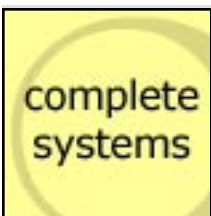

A low cost, low maintenance system for single part adhesives.

This system relies on a combination of siphon and gravity to supply a flow of adhesive without the use of pumps or pressure tanks.

Using the exclusive Tornado Nozzle, the spray gun will create a consistent vacuum to draw the adhesive through the fluid line. By elevating the adhesive container approximately 6', gravity in addition to the siphoning action of the nozzle will create a consistent delivery of adhesive.

Controlling the adhesive flow rate is very simple. By increasing the height of the adhesive container you will increase the adhesive flow. By decreasing the height of the adhesive container you will reduce the adhesive flow.

In addition, we offer three different fluid nozzle sizes: .031, .070, .096. The air atomization pressure is controlled by using the side port control built into the spray gun. The side port control acts as an air adjusting valve, so you may use your main line air directly on the spray gun without the use of a regulator.

1 Gallon System (#17-SG1)

- (1) 95T spray gun
- (1) 1 gallon siphon kit with integrated cap
- (1) 5' fluid hose
- (1) Flush kit
- All necessary fittings

5 Gallon System (#17-SG5)

- (1) 95T spray gun
- (1) 5 gallon siphon tube assembly
- (1) 20' fluid hose
- (1) Flush kit
- All necessary fittings

Tote System (#17-SG5)

- (1) 95T spray gun
- (1) Tote outlet valve & filter assembly
- (1) 20' fluid hose
- (1) Flush kit
- All necessary fittings
