

SYSTEM 500

ADHESIVE PRESSURE SYSTEM

SINGLE COMPONENT SYSTEM

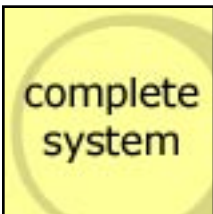

A 5 gallon system that is easy to use and designed for both single and plural component adhesives.

Easier than transferring adhesive from one container to another, System 500 fits your existing 5 gallon container of adhesive. Simply place your adhesive container inside and lock the lid. No pouring or changing tank liners.

The tank has wheels and a broad handle for easy mobility. The single component system is dual regulated. The triple regulated plural component system includes an activator pump that is outfitted with a bracket for holding a container of activator.

PLURAL COMPONENT SYSTEM

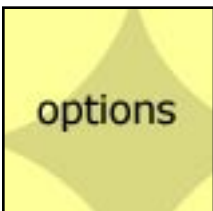

SINGLE Component System (#17-500)

- (1) 95T spray gun
- (1) 5 gallon stainless steel pressure tank
